

How UPS Supports a Circular Economy

Logistics plays an important role in ensuring the success of the circular economy. Here's how UPS supports our customers' reverse logistics needs, as well as incorporating circular principles across our own operations.

REVERSE LOGISTICS SOLUTIONS

Testing packaging innovations that enable reusable consumer goods, and helping customers reclaim products at end of life

INNOVATIVE RETURNS POLICY

Partnering with Optoro to help retailers maximize recovery value of returns and reduce landfill waste

RENEWABLE NATURAL GAS

Converting methane to power our fleet, reducing emissions, and using less conventional fuel

STREAMLINED RETURNS

Simplifying returns with turnkey packaging, preprinted labels, and convenient drop-off and pickup locations
